

A manifesto is a declaration of a person or group's principles, motives and intentions. Most pro-terrorist or terror organizations like CAIR and ISNA rarely and so openly declare their real principles and intentions instead relying on taqiyya. Hizb ut-Tahrir is very open about its principles, motives and intentions and the organization has a create a manifesto which it has placed on the web for all to read. Americans must read it. HuT believes it has been divinely chosen by Allah to be the organization which restores the Islamic state or Caliphate, unite the Ummah and impose Islamic monotheism and Shar' ia on the world through Da'wah and jihad. The manifesto is HuT's marching orders.

The manifesto covers the following areas: Ruling System, Economic System, Judiciary, Social System, Media and Information, Foreign Policy, Domestic Policy, Education Policy, About Hizb ut Tahrir and a Warm Call to join HuT and restore the long, lost Caliphate. The summary section will provide a synopsis of each division of the manifesto and provide insight into how it affects non-Muslims.
