

Summary of The Methodology of Hizb ut-Tahrir For Change
By Bo Perrin

Covers page 1

This booklet lacks the typical structure of most of Hizb's material. The Methodology is more like a running discussion than a booklet. So, instead of dividing the booklet into chapters I will divide it by an arbitrary number of pages.

The author opens his booklet introducing the objective and method. He states that the vital issue for the Ummah today is (1) the reestablishment of Allah's rule through the Khilafah, (2) appointment of a Khalifah and the pledge (Bia'a) to the Khalifah. The Khilafah and Khalifah are vital for they are the instruments Allah will use to (1) demolish the rule of the Kufir, (2) replace the Kufir laws with Allah's, (3) transfer Muslim lands into Dar al-Islam and Da'wah the message through invitation and Jihad.

The author contends that defining the vital issue also defines the object and the method. The booklet fleshes out the object and method Islam must use to successfully impose on the world the Khilafah and implement Shar'ia.
